

Jungle Adventure: Reading Comprehension Quest with Wild Friends

English

Grade 3

Jungle Theme

Help the jungle animals complete their adventures by reading each story carefully and answering the questions that follow!

NAME _____

DATE _____

SCORE _____ / 8

1

Lionel the lion found a map in an old tree trunk. The map showed 3 watering holes to the east, 2 to the north, and 4 to the west. Lionel wanted to visit all the watering holes. How many watering holes are on his map?

2

Petra the parrot saw a message written on banana leaves. It said: 'There are 5 red fruits on the mango tree, 7 yellow fruits, and 3 green fruits. A monkey ate 4 fruits total.' How many fruits were left on the mango tree?

3

Zeke the zebra organized a jungle race with his friends. 8 animals started the race, but 3 got tired and stopped. Then 2 more animals joined late. How many animals finished or are still running the race?

4

Ellie the elephant collected acorns for the winter feast. On Monday she found 6 acorns, on Tuesday she found 5 acorns, and on Wednesday she found 9 acorns. How many acorns did Ellie collect in those three days?

5

Sammy the snake discovered a hidden treasure chest with 15 shiny stones inside. He wanted to share them equally among his 3 best friends (plus keep some for himself). If he gives 4 stones to each friend, how many stones does Sammy get to keep?

6

Bella the butterfly visited 6 flowers on Monday to drink nectar. On Tuesday she visited twice as many flowers. On Wednesday she was tired and only visited 5 flowers. How many flowers did Bella visit in total?

7

Tiger Tim found paw prints in the muddy jungle path. He counted 12 paw prints from his friends walking to the waterhole, and 8 paw prints walking back home. How many more paw prints were there going to the waterhole than returning home?

8

Gino the giraffe ate leaves from tall trees. He ate 10 leaves from an acacia tree, 14 leaves from a mimosa tree, and 6 leaves from another acacia tree. How many leaves did Gino eat in total?
