1

Rocky the Eagle found a treasure map at the base of Eagle Peak. The map said: 'Start at the big pine tree. Walk 5 steps north. Turn left and walk 3 steps. Dig here!' Rocky walked north 5 steps, then turned left and walked 3 steps. How many total steps did Rocky take?

2

Crystal the Mountain Goat was reading a story about mountain lions. The story had 4 chapters. Chapter 1 had 6 pages, Chapter 2 had 5 pages, Chapter 3 had 7 pages, and Chapter 4 had 4 pages. How many pages did Crystal read in total?

3

A wise old owl told Rocky about three mountain peaks. The first peak was 100 feet tall, the second peak was 50 feet taller than the first, and the third peak was 25 feet shorter than the second. How tall was the third peak?

4

Crystal found 12 shiny rocks on the mountain trail. She gave 3 rocks to Rocky, 2 rocks to a young mountain deer, and 1 rock to a lost baby mountain goat. How many rocks did Crystal have left?

5

Rocky's family stored food for winter in a mountain cave. They had 8 bags of seeds, 6 bags of berries, and 5 bags of nuts. A hungry bear took 4 bags total. How many bags of food were left?

6

Crystal climbed up the mountain every morning. On Monday she climbed 2 miles up. On Tuesday she climbed 3 miles up. On Wednesday she climbed 1 mile up. By Thursday she had climbed down 4 miles. How many miles up the mountain was she from the starting point?

7

An ancient mountain scroll told of treasure hidden in 3 locations. Location A had 15 gold coins, Location B had 20 gold coins, and Location C had 10 gold coins. If Rocky found all three locations, how many gold coins did he discover?

8

Crystal's friend, a mountain rabbit, collected wildflower seeds. She had 9 purple flowers, 7 yellow flowers, and 6 white flowers in her collection. But 5 flowers got blown away by the wind. How many flowers did she have left?

Answer Key

1

Rocky the Eagle found a treasure map at the base of Eagle Peak. The map said: 'Start at the big pine tree. Walk 5 steps north. Turn left and walk 3 steps. Dig here!' Rocky walked north 5 steps, then turned left and walked 3 steps. How many total steps did Rocky take?

ANSWER

8 steps

2

Crystal the Mountain Goat was reading a story about mountain lions. The story had 4 chapters. Chapter 1 had 6 pages, Chapter 2 had 5 pages, Chapter 3 had 7 pages, and Chapter 4 had 4 pages. How many pages did Crystal read in total?

ANSWER
