

Pirate's Reading Treasure Hunt: Comprehension

Adventures on the High Seas

English

Grade 3

Pirates Theme

📖 Help Captain Blackbeard and his pirate crew solve reading mysteries to find their hidden treasure!

NAME _____

DATE _____

SCORE _____ / 8

1

Captain Blackbeard found an old treasure map in a bottle. The map said: 'Walk 15 steps north to the palm tree, then 8 steps east to the rock.' How many total steps did Captain Blackbeard need to walk to reach the rock?

2

Pirate Pete's ship had 12 barrels of fresh water. During the voyage, the crew used 5 barrels to drink and cook. How many barrels of fresh water were left on the ship?

3

The ship's cook prepared dinner for the pirate crew. He made 24 pieces of hardtack biscuits and divided them equally among 6 hungry pirates. How many biscuits did each pirate get?

4

While sailing through Skull Cove, the pirate lookout spotted 3 merchant ships on Monday, 5 merchant ships on Tuesday, and 2 merchant ships on Wednesday. How many merchant ships did the lookout see in total?

5

Pirate Sally discovered a chest containing 18 gold coins. She wanted to share them equally with her 2 best pirate friends. How many gold coins would each pirate get?

6

The pirate ship sailed past 9 islands looking for treasure. At each island, they found 3 coconuts. How many coconuts did they collect from all the islands?

7

Captain Redbeard's crew caught 30 fish to cook for supper. If they used 12 fish for the main dish and 8 fish for soup, how many fish were left over?

8

A pirate ship had 40 cannonballs stacked on deck. During a battle, they fired 15 cannonballs. Then they found 7 more cannonballs in the storage hold. How many cannonballs did they have altogether after the battle?
