

Sports Champions' Reading Adventures: Comprehension Quest

English

Grade 3

Sports Theme

Read each sports adventure carefully and answer the questions like a true champion!

NAME _____

DATE _____

SCORE _____

/ 8

1

Soccer star Maya found a mysterious treasure map in the locker room. The map said: 'Walk 10 steps north to the goal post, then 5 steps east to the bench, then 3 steps south to find the treasure.' How many total steps did Maya need to take to reach the treasure?

2

Basketball player Tim read a poster on the gym wall that said: 'Our team won 7 games in January, 9 games in February, and 8 games in March. How many games did we win in total?' Tim needs to find the answer to win a trophy. What is it?

3

Runner Jake discovered a note from his coach saying: 'If you run 4 miles on Monday, 6 miles on Wednesday, and 5 miles on Friday, you will be the fastest runner in the world!' How many miles total would Jake run that week?

4

Swimmer Luna read her training schedule which said: 'Swim 20 laps on Day 1, swim 15 more laps on Day 2 than Day 1, and swim 10 more laps on Day 3 than Day 2.' How many laps will Luna swim on Day 3?

5

Baseball legend Carlos found a journal that read: 'I hit 6 home runs in Game 1. In Game 2, I hit 2 fewer home runs than Game 1. In Game 3, I hit 1 more home run than Game 2. How many home runs did I hit in Game 3?'

6

Tennis champion Alex read her match results: 'Monday: won 3 matches, Tuesday: won twice as many as Monday, Wednesday: won 2 fewer than Tuesday.' How many matches did Alex win on Wednesday?

7

Gymnast Sophie discovered instructions for a balance routine: 'Do 8 cartwheels, then 5 handstands, then 3 backflips. If you do this routine twice, how many total moves will you complete?'

8

Ice skater Marcus found a scroll saying: 'You have 12 skating competitions this year. You have already completed 4 competitions. You have 2 competitions next month. How many competitions will you have after next month?'
