

Palette's Addition Adventures: A Journey Through the Art Studio

Math

Grade 2

Art Theme

Help Palette the paintbrush and friends solve addition problems as they create amazing artwork and go on magical art studio adventures!

NAME _____

DATE _____

SCORE _____ / 8

1

Palette the paintbrush found 3 red paint tubes in the art supply closet. Then she discovered 4 more red paint tubes hidden behind some canvases. How many red paint tubes does Palette have altogether?

2

Canvas the cat was playing in the studio and knocked over 5 paintbrushes. Bristle the artist quickly picked up 6 more brushes that had fallen too. How many paintbrushes fell down in total?

3

At the annual Gallery Grand Opening, Sketch the pencil sketched 2 portraits in the morning. By afternoon, he had sketched 5 more portraits. How many portraits did Sketch create that day?

4

Colorful the crayon was organizing the art corner. She arranged 8 boxes of colored pencils on the top shelf and 4 boxes on the bottom shelf. How many boxes of colored pencils did Colorful organize in total?

5

In the mural-making adventure, Splash the watercolor paint created 6 beautiful blue swirls on the wall. Then Shimmer the glitter paint added 3 sparkly swirls next to them. How many swirls did they create together?

6

During the clay sculpture festival, Mold the sculptor made 4 small clay pots in the morning class. In the afternoon class, she made 7 more clay pots. How many clay pots did Mold create altogether?

7

Easel the wooden stand was displaying paintings from the student art show. There were 5 paintings on one wall and 8 paintings on another wall. How many paintings were displayed in total?

8

During the Art Festival Adventure, Marker the magical marker drew 6 rainbows in the sky. Then her friend Pencil drew 5 more rainbows beside them. How many rainbows did they draw together?
