1

Sandy the camel finds 5 golden scorpions hiding under rocks. Later, she discovers 3 more scorpions near the cactus. How many golden scorpions did Sandy find in total?

2

Petra the prairie dog collects 7 seeds from the desert flowers on Monday. On Tuesday, she collects 4 more seeds. How many seeds does Petra have altogether?

3

Raja the rattlesnake sees 6 lizards sunbathing on a rock in the morning. By afternoon, 2 more lizards join them. How many lizards are sunbathing together?

4

Dusty the tumbleweed rolls past 8 desert bushes on the first day of his adventure. On the second day, he rolls past 5 more bushes. How many bushes has Dusty passed in total?

5

Oasis the oasis frog spots 4 dragonflies near the water in the morning. By evening, 6 more dragonflies arrive. How many dragonflies does Oasis see during the day?

6

Sphinx the sand cat collects 9 smooth pebbles for her nest. Her friend brings 3 more pebbles as a gift. How many pebbles does Sphinx have now?

7

Blaze the roadrunner races past 6 desert flowers in the morning and 7 desert flowers in the afternoon. How many desert flowers did Blaze race past during the day?

8

Mirage the desert owl finds 5 shiny beetles in his first nest and 8 shiny beetles in his second nest. How many shiny beetles did Mirage find altogether?
