

Jungle Adventures: Addition Quests in the Wild

Math

Grade 2

Jungle Theme

□ Help our Jungle friends solve their exciting addition adventures by finding the answers to each story!

NAME _____

DATE _____

SCORE _____ / 8

1

Lenny the Lion is hunting for bananas in the jungle. He finds 3 bananas near the big tree and 4 bananas by the watering hole. How many bananas did Lenny find altogether?

2

Stella the Striped Zebra is gathering her herd. She sees 5 zebras drinking at the river and 2 more zebras running through the tall grass. How many zebras did Stella see in total?

3

Pasha the Parrot is collecting colorful feathers for his nest. He finds 6 red feathers and 3 blue feathers on the jungle floor. How many feathers does Pasha have now?

4

Gigi the Giraffe is snacking on leaves from the tall trees. She munches 4 leaves from one tree and 5 leaves from another tree. How many leaves did Gigi eat?

5

Rocky the Rhinoceros made 2 mud baths in the morning and 6 more mud baths in the afternoon to cool off. How many mud baths did Rocky make altogether?

6

Bella the Butterfly is visiting flowers in the jungle garden. She lands on 5 red flowers and 3 yellow flowers. How many flowers did Bella visit?

7

Sammy the Snake slithered past 2 rocks, then 7 more rocks on his jungle journey. How many rocks did Sammy pass in all?

8

Ellie the Elephant is splashing in the watering hole with her friends. There are 4 elephants playing and 4 more elephants arrive to join them. How many elephants are playing altogether?
