SCORE

____ / 8

1

Pippa the polar bear is buying fish at the ice market. She has 25 cents. A frozen fish costs 10 cents. How much money will Pippa have left after buying one fish?

2

Ollie the otter found some coins while sliding on the frozen lake. He found 12 cents on Monday and 18 cents on Tuesday. How many cents did Ollie find in total?

3

Sasha the seal is saving coins to buy a new ice cave. She has 35 cents and her friend gives her 20 cents as a gift. How much money does Sasha have now?

4

Benny the arctic fox wants to buy three snowballs from the Arctic shop. Each snowball costs 5 cents. How much will three snowballs cost altogether?

5

Luna the arctic hare had 50 cents. She spent 30 cents on carrots from the frozen garden. How much money does Luna have left?

6

Kai the walrus collected coins from the ice floes. He found 15 cents, then found 15 cents more. How many cents does Kai have altogether?

7

Stella the snowy owl is buying supplies for her nest. One bundle of sticks costs 8 cents and one bundle of feathers costs 7 cents. How much will both bundles cost?

8

Frost the arctic rabbit started with 40 cents. He bought an ice treat for 25 cents. How many cents does Frost have remaining for his next adventure?
