1

Triceratops discovers a shiny treasure chest in Dino Valley! Inside, he finds 3 pennies and 2 more pennies. How many pennies does Triceratops have in total?

2

Stegosaurus is shopping at the Prehistoric Market. She has 4 nickels (worth 5 cents each). How many cents does she have altogether?

3

Two T-Rex brothers, Rex and Tex, are on a quest to buy a fossil. Rex collects 6 dimes and Tex collects 4 dimes. How many dimes do they have together?

4

Baby Raptor finds coins while exploring Meteor Crater. She picks up 2 quarters (worth 25 cents each). How many cents does Baby Raptor have?

5

Brachiosaurus is the richest dinosaur in the land! He has 5 pennies, 3 nickels, and 2 dimes. How much money does he have in cents? (Hint: Count the pennies as 1 cent each, nickels as 5 cents each, and dimes as 10 cents each)

6

Ankylosaurus opens a dinosaur toy store. She sells 8 toys for 1 dollar each. How many dollars does she earn from selling all the toys?

7

Pterodactyl is flying through the Dino Market and spots delicious fern snacks! One snack costs 15 cents. If Pterodactyl buys 2 snacks, how much will she spend?

8

The Dinosaur Family is saving up for a trip! Mom saves 25 cents, Dad saves 30 cents, and Junior saves 20 cents. How many cents does the whole family save together?
