

Jungle Coins Adventure: Money Mysteries in the Wild

Math

Grade 2

Jungle Theme

Help the jungle animals count their coins and solve money problems as they go on exciting adventures through the rainforest!

NAME

DATE

SCORE

____ / 8

1

Leo the lion found some coins while exploring the jungle. He found 3 coins in the morning and 2 coins in the afternoon. How many coins does Leo have altogether?

2

Mona the monkey swings through the banana trees and collects coins. She has 8 coins and finds 4 more coins hidden in a tree. How many coins does Mona have now?

3

Ellie the elephant is buying fruit at the jungle market. A mango costs 5 coins and a coconut costs 3 coins. If Ellie buys one of each, how much does she spend?

4

Ziggy the zebra has 15 coins saved up. He spends 6 coins on a drink at the watering hole. How many coins does Ziggy have left?

5

Polly the parrot found a treasure chest with 7 coins. Her friend Petey found 7 coins too. How many coins do they have together?

6

Gigi the giraffe had 20 coins. She gave 10 coins to her baby giraffe to buy leaves from the jungle vendor. How many coins does Gigi have left?

7

Remy the rhino collected coins during the dry season. He collected 4 coins on Monday, 5 coins on Tuesday, and 3 coins on Wednesday. How many coins did Remy collect in total?

8

Tasha the tiger wants to buy a jungle map for 9 coins. She only has 6 coins right now. How many more coins does she need?
