

Holiday Adventures: Subtraction Stories with Santa and Friends

Math

Grade 2

Holidays Theme

Help Santa and his Holiday friends solve their exciting subtraction adventures by figuring out how many items they have left!

NAME _____

DATE _____

SCORE _____ / 8

1

Santa's reindeer team had 12 candy canes to munch on during their North Pole practice. Rudolph ate 5 of them. How many candy canes are left for the other reindeer?

2

Frosty the Snowman built 15 little snow friends in the town square. But when the sun came out, 6 of them melted away. How many snow friends are still standing?

3

Mrs. Claus baked 18 delicious gingerbread cookies for the Christmas party. The elves ate 8 of them while decorating. How many cookies does Mrs. Claus have to serve her guests?

4

The Christmas tree in the town square had 20 beautiful ornaments hanging on its branches. A strong winter wind blew off 7 ornaments. How many ornaments are still on the tree?

5

Rudolph the Red-Nosed Reindeer had 14 carrots stored in the stable. He shared 6 carrots with his reindeer friends. How many carrots does Rudolph have left for himself?

6

The Nutcracker soldier had 16 toy soldiers lined up in the holiday parade. But 9 of them tumbled over when the band started playing. How many toy soldiers are still standing tall?

7

Santa's gift bag had 19 presents for the children on Maple Street. He delivered 11 of them to their homes. How many presents does Santa still have in his bag?

8

The elf workshop had 17 toy trains ready to wrap as gifts. The elves wrapped up 9 of them. How many toy trains still need to be wrapped?
