

Seasons Adventures: Subtraction Stories with Spring, Summer, Fall, and Winter

Math

Grade 2

Seasons Theme

Help the Seasons characters solve their subtraction adventures by figuring out how many items they have left!

NAME

DATE

SCORE

____ / 8

1

Spring was planting 12 colorful flowers in her garden when some wilted in the heat. She had to remove 5 flowers that didn't survive. How many healthy flowers does Spring have left to enjoy?

2

Summer was selling 15 ice cream cones at the beach when a big wave splashed and ruined 6 of them. How many ice cream cones does Summer have left to sell to her customers?

3

Fall collected 18 beautiful leaves for his autumn decoration when the wind blew away 7 of them. How many leaves does Fall have left for his pile?

4

Winter was building 14 snowballs for a snowball fight when 8 of them started to melt in the afternoon sun. How many snowballs does Winter have left that are still frozen?

5

Spring had 13 baby birds hatch from their eggs when 4 of them flew away to explore. How many baby birds are still in the nest with Spring?

6

Summer found 16 seashells on the beach during her treasure hunt when she accidentally dropped 9 of them back into the ocean. How many seashells does Summer have left in her bucket?

7

Fall baked 11 delicious pumpkin pies for the harvest festival when his friends ate 3 of them before the party started. How many pies does Fall have left for everyone at the festival?

8

Winter had 17 icicles hanging from his icy castle when the warm breeze melted 6 of them away. How many icicles does Winter still have decorating his castle?
