

# Jungle Adventure Division: Help the Animals Share Their Treasures!

Math

Grade 3

Jungle Theme

Help the jungle animals divide their food and treasures equally by solving these exciting division adventures!

NAME \_\_\_\_\_

DATE \_\_\_\_\_

SCORE \_\_\_\_\_ / 8

1

Leo the lion caught 12 fish for his family dinner. He wants to share them equally among his 3 cubs. How many fish does each cub get?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

2

Bella the butterfly found 20 colorful flowers in a meadow. She wants to divide them equally into 5 bouquets to decorate her tree home. How many flowers go in each bouquet?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

3

Marco the monkey discovered 24 bananas hanging from vines. He decided to split them equally with his 6 monkey friends (including himself). How many bananas does each monkey get?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

4

Zara the zebra gathered 18 pieces of grass from the savanna to feed herself and 2 antelope friends equally. How many pieces of grass does each animal receive?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

5

Ellie the elephant found 16 peanuts buried under a tree. She wants to organize them into 4 equal piles for her four elephant cousins visiting from across the jungle. How many peanuts are in each pile?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

6

Raja the tiger caught 15 birds for his hunting party of 3 tigers. If they divide the birds equally, how many birds does each tiger get?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

7

Poppy the parrot collected 30 shiny pebbles for a special jungle treasure chest. She wants to distribute them equally among 5 different hiding spots in the trees. How many pebbles go in each hiding spot?

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

8

Sammy the snake found 21 smooth stones to create 7 different pathways through the jungle vines. If each pathway uses the same number of stones, how many stones are needed for each pathway?
