

Musical Notes Division Adventures: Help the Band Share the Stage!

Math

Grade 3

Music Theme

Help your musical friends solve their division adventures by sharing instruments, notes, and performance spaces equally among band members!

NAME _____

DATE _____

SCORE _____ / 8

1

Melody the Soprano has 12 golden musical notes that she earned from her performances. She wants to divide them equally among her 3 best friends in the choir. How many notes does each friend get?

2

Drummer Doug collected 15 drumsticks from his drum kit adventure. He needs to pack them equally into 5 different instrument cases for the concert tour. How many drumsticks go in each case?

3

Piano Paulina has 18 sheet music pages from her grand piano journey. She wants to organize them into 6 equal stacks for her orchestra section. How many pages are in each stack?

4

Violin Victor discovered 20 beautiful violin strings while exploring the music hall. He wants to share them equally among 4 young violinists learning to play. How many strings does each student get?

5

Guitar Gina earned 24 guitar picks during the Battle of the Bands competition. She wants to divide them equally among the 8 members of her garage band. How many picks does each band member receive?

6

Trumpet Ted found 16 shiny trumpet valves hidden in the music storage room. He needs to distribute them equally to 4 trumpet players preparing for the marching band. How many valves does each trumpet player get?

7

Harmonica Henry collected 21 tiny harmonicas from his magical music shop. He wants to divide them equally among 7 friends who want to learn to play. How many harmonicas does each friend get?

8

Xylophone Xena discovered 25 colorful wooden mallets in the orchestra's treasure chest. She needs to share them equally among 5 percussionists for the grand performance. How many mallets does each percussionist get?
