

Division Adventures Through the Four Seasons

Math

Grade 3

Seasons Theme

Help the Seasons characters solve their division problems as they go on magical adventures throughout the year!

NAME _____

DATE _____

SCORE _____ / 8

1

Spring is planting flowers in her garden and has 12 colorful tulips to divide equally among 3 flower beds. How many tulips will go in each bed?

2

Summer is organizing a beach picnic and has 20 sandwiches to share equally with 5 friends. How many sandwiches does each friend get?

3

Autumn is gathering 18 pumpkins from the patch and wants to pack them into 6 baskets with the same number in each basket. How many pumpkins go in each basket?

4

Winter found 24 icicles hanging from her castle and decided to arrange them into 8 groups for decoration. How many icicles are in each group?

5

Spring is making flower crowns and has 15 daisies to divide equally among 3 crowns. How many daisies will be on each crown?

6

Summer brought 16 ice cream cones to share equally among 4 children at the beach party. How many ice cream cones does each child receive?

7

Autumn collected 14 acorns and wants to hide them in 2 secret spots in the forest equally. How many acorns should she hide in each spot?

8

Winter has 21 snowflakes to place equally onto 7 different windowpanes in her ice palace. How many snowflakes go on each windowpane?
