

The Great Food Kingdom Multiplication Adventure

Math

Grade 3

Food Theme

Help the brave Food characters complete their quests by solving multiplication problems in their delicious world!

NAME _____

DATE _____

SCORE _____ / 8

1

Chef Carrot is preparing for the Royal Vegetable Festival! She needs to pack baskets of fresh carrots for 6 different villages. Each basket holds 4 carrots. How many carrots does Chef Carrot need to pack in total?

2

Sir Strawberry the Brave is hosting a juice-making tournament at his castle. He invites 3 teams of fruit smoothie makers, and each team needs 5 strawberries to make their special smoothie. How many strawberries must Sir Strawberry gather from his garden?

3

Pizza Princess is opening 7 new pizza restaurants across the Food Kingdom! Each restaurant needs 8 large pizza pans to start their kitchen. How many pizza pans does Pizza Princess need to order altogether?

4

Captain Cookie is sailing his chocolate chip cookie ship across the Milk Sea. He has 9 crew members, and each sailor gets 3 cookies as a daily treat. How many cookies does Captain Cookie serve to his crew each day?

5

The Banana Buddies are performing their famous acrobatic show! There are 4 groups of Banana Buddies, and each group has 6 bananas doing spectacular tricks. How many bananas are performing in total?

6

Donut Dragon discovered a magical donut-growing forest! There are 8 special donut trees, and each tree produces 7 delicious donuts per week. How many donuts will Donut Dragon harvest this week?

7

The Cheese Castle is preparing for a grand feast! The royal kitchen needs to prepare 5 different cheese platters, and each platter requires 9 slices of fine cheese. How many cheese slices must the castle prepare?

8

Muffin Mountain is hosting a baking competition with 6 contestants. Each contestant bakes 8 beautiful muffins to enter in the contest. How many muffins will be entered into the competition?
