SCORE _____ / 8

1

Santa's elves are wrapping presents in the workshop. They have 4 tables, and each table has 6 wrapped presents stacked high. How many presents have the elves wrapped in total?

2

The Easter Bunny is hiding colorful eggs in the meadow for the big Easter hunt. He hides eggs in 5 different gardens, putting 7 eggs in each garden. How many eggs did the Easter Bunny hide altogether?

3

Cupid is preparing Valentine's Day cards at his workshop in the clouds. He makes 3 batches of cards, with 8 cards in each batch. How many Valentine's cards did Cupid create?

4

The Tooth Fairy is collecting teeth from children around the world. She visits 6 houses on Halloween night, and collects 4 teeth from each house. How many teeth did the Tooth Fairy gather?

5

Thanksgiving turkeys are being prepared in the magical holiday kitchen. The head chef roasts 2 turkeys in each of the 9 ovens. How many turkeys are cooking for the Thanksgiving feast?

6

The Fourth of July fireworks team is loading fireworks into boxes. They pack 5 boxes with 8 fireworks in each box. How many fireworks will light up the sky?

7

Rudolph and the other reindeer need hay for their Christmas Eve journey around the world. Each of the 3 reindeer barns has 7 bales of hay. How many bales of hay do all the barns have together?

8

The New Year's Eve party planners are blowing up balloons for the celebration. They blow up 4 bunches of balloons with 9 balloons in each bunch. How many balloons will decorate the party?
