

Seasonal Adventures: Multiplication Missions with Spring, Summer, Fall, and Winter

Math

Grade 3

Seasons Theme

Help our Seasons friends solve their multiplication adventures by figuring out how many items they collect, plant, or prepare for their seasonal quests!

NAME _____

DATE _____

SCORE _____ / 8

1

Spring is planting flower seeds in her magical garden. She plants 3 rows of sunflowers, and each row has 4 seeds. How many sunflower seeds does Spring plant in total?

2

Summer is hosting beach parties for his friends. He invites 5 groups of friends, and each group brings 6 seashells for a game. How many seashells does Summer collect?

3

Fall is gathering pumpkins for the harvest festival. She finds 4 pumpkin patches, and each patch has 7 pumpkins. How many pumpkins does Fall gather?

4

Winter is baking snowflake cookies for his ice palace party. He bakes 6 batches of cookies, and each batch makes 8 cookies. How many snowflake cookies does Winter bake?

5

Spring discovers 2 fairy gardens, and in each garden there are 9 magical flowers. How many magical flowers does Spring find on her adventure?

6

Summer catches butterflies for his nature collection. He catches 7 butterflies near each of 5 sunny meadows. How many butterflies does Summer catch?

7

Fall creates leaf crowns for her forest friends. She makes 8 crowns, and each crown needs 3 colorful leaves. How many leaves does Fall use?

8

Winter decorates his igloo with icicle lights. He hangs 9 icicle lights on each of 4 sides of the igloo. How many icicle lights does Winter hang?
