Forest Friends' Fraction Adventures

Math Grade 4 Nature Theme

🌿 Help the woodland creatures solve their fraction challenges by completing each Nature-filled adventure!

NAME _____

DATE _____

SCORE _____ / 8

1

Bella the Bear found a berry bush with 8 delicious berries. She ate 3/8 of the berries for breakfast. How many berries did Bella eat?

2

Ollie the Owl was organizing acorns in his tree home. He had 12 acorns and gave 1/4 of them to his friend Sammy the Squirrel. How many acorns did Ollie give away?

3

River the Raccoon collected 20 shiny pebbles from the creek. He used 1/5 of them to decorate his den. How many pebbles did River use for decoration?

4

Lily the Ladybug was flying through a garden with 16 flowers. She landed on 1/2 of the flowers to rest. How many flowers did Lily visit?

5

Chester the Chipmunk found a pile of 24 seeds. He ate 1/3 of the seeds and buried the rest for winter. How many seeds did Chester eat?

6

Windy the Deer spotted 18 butterflies dancing in the meadow. She watched 2/3 of them fly toward the roses. How many butterflies flew toward the roses?

7

Splash the Frog was swimming past lily pads in the pond. There were 15 lily pads, and 3/5 of them had dragonflies resting on them. How many lily pads had dragonflies?

8

Pippa the Porcupine found a pine cone with 10 seeds inside. She ate 2/5 of the seeds as a snack. How many seeds did Pippa eat?

Answer Key

Math · **Grade 4** · **For Parents and Teachers**

1

Bella the Bear found a berry bush with 8 delicious berries. She ate 3/8 of the berries for breakfast. How many berries did Bella eat?

ANSWER

3 berries

2

Ollie the Owl was organizing acorns in his tree home. He had 12 acorns and gave 1/4 of them to his friend Sammy the Squirrel. How many acorns did Ollie give away?

ANSWER

3 acorns

3

River the Raccoon collected 20 shiny pebbles from the creek. He used 1/5 of them to decorate his den. How many pebbles did River use for decoration?

ANSWER

4 pebbles

4

Lily the Ladybug was flying through a garden with 16 flowers. She landed on 1/2 of the flowers to rest. How many flowers did Lily visit?

ANSWER

8 flowers

5

Chester the Chipmunk found a pile of 24 seeds. He ate 1/3 of the seeds and buried the rest for winter. How many seeds did Chester eat?

ANSWER

8 seeds

6

Windy the Deer spotted 18 butterflies dancing in the meadow. She watched 2/3 of them fly toward the roses. How many butterflies flew toward the roses?

ANSWER

12 butterflies

7

Splash the Frog was swimming past lily pads in the pond. There were 15 lily pads, and 3/5 of them had dragonflies resting on them. How many lily pads had dragonflies?

ANSWER

9 lily pads

8

Pippa the Porcupine found a pine cone with 10 seeds inside. She ate 2/5 of the seeds as a snack. How many seeds did Pippa eat?

ANSWER

4 seeds
