

Seasons Adventures: Word Problem Quest with Spring, Summer, Fall, and Winter

Math

Grade 4

Seasons Theme

Help the Seasons characters solve their magical adventures by working through each word problem like a true math hero!

NAME _____

DATE _____

SCORE _____ / 8

1

Spring is planting colorful flowers in her enchanted garden. She plants 24 tulips in the morning and 18 daisies in the afternoon. How many flowers did Spring plant in total?

2

Summer is organizing a beach party for all the Season friends. She has 56 seashells and wants to divide them equally among 8 decorative buckets. How many seashells go in each bucket?

3

Fall is collecting colorful leaves for his magical leaf pile. On Monday he collects 35 leaves, on Tuesday he collects 29 leaves, and on Wednesday he collects 16 leaves. How many leaves did Fall collect in all?

4

Winter is baking snowflake cookies for the Season Festival. She bakes 12 cookies in the morning and 15 cookies in the afternoon. If each cookie takes 3 minutes to decorate, how many minutes total will it take to decorate all the cookies?

5

Spring and Summer are racing through a magical meadow. Spring runs 45 meters and Summer runs 67 meters. How many meters farther did Summer run than Spring?

6

Fall is preparing for the harvest festival. He has 96 apples to pack into boxes with 8 apples in each box. How many boxes will he need?

7

Winter is building snowmen with her friends. She builds 4 snowmen on each of the 7 days of the week. How many snowmen did Winter build in one week?

8

All four Season characters are pooling their magical coins for a big adventure. Spring has 18 coins, Summer has 25 coins, Fall has 31 coins, and Winter has 26 coins. How many coins do they have altogether?
